

### BUILDING

- A total of 24 building permits were issued in April, which is slightly lower than March where 30 permits were issued. By contrast, in April of 2019, the number of permits issued was 43 – which was due to a spike in both roofing and driveway permits at the time, and typical for favorable weather conditions.

### ZONING

- Kane County Petition for Zoning Map Amendment/Special Use 42W665 Plato Road – *Update*  
The Village Board voted unanimously at its April 21, 2020 meeting to recommend approval. This matter is now tentatively scheduled to be heard by the Kane County Zoning Board of Appeals on June 9, 2020 (postponed from the original May 12, 2020 date).

### STORMWATER

- As of May 1, 2020, Staff is tracking stormwater inquiries through a separate “*Report a Concern*” form dedicated to Stormwater/Drainage problems. This form is available via a link on the main web page. Residents are encouraged to use this form to describe the problem and attach photos. Starting in June, staff will begin reporting on the data collected from these forms and what we continue to receive by telephone (for those who do not have computer access). In the meantime, staff is compiling educational resources which will be made available on the Village web page, to help residents understand their rights and responsibilities as well as environmental factors relating to stormwater management.
