

OFFICER BLEWCOE

Dear Officer,

I want to thank you for pulling me over in late December. I did thank you at the time but it wasn't a very big thank you. As I was pulling away I was aware that you may have saved my life, someone else's life or even maybe the life of a deer. You see, I am the person that every one else passes, sometimes even in a no passing zone, because I am driving the speed limit.

On that evening I was on a "Happy high" because I had just found something I had been searching for and I was also able to help three strangers who responded nicely. I pulled onto Silver Glen behind two cars and just drove. Once they turned I just kept driving. I DIDN'T LOOK ONCE AT MY SPEEDOMETER! I had no idea that I was speeding. That is very scary.

The on line driving school was great! I had behind the wheel over forty years ago and things have changed. I learned much and have been putting it to use and sharing it. I am now also calmer when cars back up behind me because I am going the speed limit. That's their problem.

Having family members hit by people with no insurance, I am also thankful that you made me prove I had insurance. I did and do and always will.

I know your job isn't easy. It's one I could never do. I am glad that there are people willing to be out there serving and protecting us.

Again, Thank You!

p.s. I couldn't read your name, that's why I am sending this to your badge #.
