i. RV's The Village Board discussed the proposed draft ordinance covering the Storage of Recreational Vehicles (section 9.10). After discussion, a consensus was reached that the language would be revised to read as follows:

9.10 **STORAGE OF RECREATIONAL VEHICLES 9.10**

**A.** Recreational vehicles may be stored in a residential district either within a fully enclosed structure or within the interior side yard behind the front building line or in the rear yard. If stored in the interior side or rear yard, the recreational vehicle must be located at least ten feet from any lot line.

**B.** No recreational vehicle may be used for living, sleeping, or housekeeping purposes in any district for more than 14 days and may not be hooked up to any public utilities. Recreational vehicles may be connected to electricity at a residence in order to maintain the battery life of the vehicle.

**C.** All recreational vehicles must be maintained in mobile condition. No recreational vehicle may be parked or stored in such manner as to create a dangerous or unsafe condition on the lot where it is parked or stored. If the recreational vehicle is parked or stored, whether loaded or not, so that it may tip or roll, it is considered to be a dangerous and unsafe condition.
