## 12. SOFTWARE UPDATE RELEASE SCHEDULE

HHIT defines 5 levels of criticality for software updates and patches, as follows:

A **Remote Function Call (RFC)** is the call or remote execution of a Remote Function Module in an external system. Such as if we worked on one of your computers remotely from our office to update software or fix an issue on the computer.

**Critical:** An update that resolves security vulnerability whose exploitation could allow propagation of a worm or virus without user action. HHIT will test and approve or disapprove updates within 3 business days following notification of availability. Once approved, HHIT will initiate the deployment process as defined above in the RFC (Remote Function Call) process.

**Important:** An update that resolves security vulnerability whose exploitation could result in compromise of the confidentiality, integrity, or availability of Client's data, or of the integrity or availability of covered devices or services. An update that resolves a major functionality flaw or results in dramatically improved performance of the software.

HHIT will test and approve or disapprove updates within 10 business days following notification of availability. Once approved, HHIT will initiate the deployment process as defined above in the RFC (Remote Function Call) process.

**Moderate and Low:** An update that resolves a security vulnerability whose exploitation can be mitigated to a significant degree by factors such as default configuration or auditing, or whose exploitation is extremely difficult or

# Helping Hand IT Services and Networking

whose impact is minimal. An update that resolves a minor functionality flaw or results in marginally improved performance of the software.

HHIT will test and approve or disapprove updates within 30 calendar days following notification of availability. Once approved, HHIT will initiate the deployment process as defined above in the RFC (Remote Function Call) process.

**Service release:** An update that adds major functionality to a software product or changes its functionality, or a bundled package of updates accumulated over the course of several months or years. Typically referred to as a service pack, service release, maintenance release, or functionality release, and identified by a change in the minor version number (ie. Adobe Photoshop 6.0 to 6.1). Typically released by the vendor at no cost.

HHIT will test and approve or disapprove the service release within 6 calendar months following notification of availability. Once approved, HHIT will initiate the deployment process as defined above in the RFC (Remote Function Call) process.

**Major revision:** A major functionality upgrade identified by the vendor as a new version of the product, and which typically requires payment or maintenance contract to obtain. Typically identified by a change in the major version number (ie. Microsoft Windows 2000 to Microsoft Windows 2003).

HHIT will test and approve or disapprove the major revision within 12 calendar months following notification of availability. Once approved, HHIT will submit a change request and will work with Client to determine any required architecture or functionality changes and define the implementation schedule.

**Other updates:**

Driver updates, BIOS upgrades, firmware updates, and other update types not mentioned specifically elsewhere in this document, are installed only in the event that they are known or expected to resolve an open service request, if they are known or expected to resolve a critical security flaw in the current configuration, or if they are a prerequisite for a patch or other update being applied.

## **13. WARRANTIES AND DISCLAIMERS**

**WITH RESPECT TO THE SERVICES AND PRODUCTS PROVIDED TO CUSTOMER HEREUNDER, HHIT DOES NOT MAKE, AND HEREBY DISCLAIMS, ALL WARRANTIES OF ANY KIND WHATSOEVER, EXPRESS, IMPLIED AND STATUTORY. UNLESS THE DAMAGES ARE SPECIFICALLY AND SOLELY ATTRIBUTED TO HHIT'S NEGLIGENCE OR THAT OF ITS AGENTS OR**

# Helping Hand IT Services and Networking

EMPLOYEES.

THE STATED WARRANTIES AND THE COMMITMENTS SET FORTH HEREIN ARE IN LIEU OF ALL OTHER OBLIGATIONS OR LIABILITIES ON THE PART OF HHIT FOR DAMAGES OR OTHER RELIEF, INCLUDING, BUT NOT LIMITED TO, SPECIAL, INDIRECT OR CONSEQUENTIAL DAMAGES THAT IN ANY WAY ARISE OUT OF OR IN CONNECTION WITH THE USE AND/OR THE PERFORMANCE OF ANY SOFTWARE. **Please see our E&O Insurance attached.**
