

**MINUTES FOR THE MEETING OF THE  
PUBLIC WORKS COMMITTEE  
OF THE VILLAGE OF CAMPTON HILLS  
January 4, 2023**

- I. Call to Order - Chairman Boveri called the Public Works Committee Meeting to order at 6:30 p.m.
- II. **ROLL CALL** – Present: John Boveri, Jake Thorsen, Rich Schult, Kim Muhr, Andro Lerario. Also, in attendance: Scott Marquardt (HR Green Village Engineer), Denise Burchard (Village Administrator), Ray Weber (Campton Township Highway District), Mike Millette, Mike Tyrrell
- III. Member Lerario motioned, seconded by Member Schult, to approve the minutes of the October 5, 2022 meeting. All Ayes, motion approved.
- IV. Reports – Village Engineer
  - a. Anderson Road resurfacing has been completed.
  - b. Roadway classification request: The Village has received official IDOT correspondence that Denker Road, Brown Road and Town Hall Road have been approved and are classified as minor collector roadways. Fox Mill Boulevard was removed from the request. These roads are now eligible for federal funding, and the next call for funding through KKCOM is January of 2024.
  - c. KKCOM Grant Application: The Village approved the design engineering for Campton Hills Road from Anderson Road to Town Hall Road.
  - d. Pavement Cores: The Village Engineer brought in core samples and showed the committee the state of the core samples from Campton Hills Road, which were in various stages of disrepair. This is for spring of '24 construction and we would be improving 1.6 miles of street using full depth reclamation. Using the grant, we are paying 25% of the cost and getting a much better road. Looking at the Village paying \$350,000 to \$400,000 for the project. The Village is paying 63% of the road and Township is 37%. The condition of Campton Hills Road was worse than Anderson Road. Will most likely do Full Depth Reclamation on the road which will hold up for many years.
  - e. Rebuild Illinois Bond Fund – The funds have been delegated to go to the A,B, C roads that were chosen in 2023. The Village Engineer is hesitant that we can use these funds for a 2" overlay.
  - f. FY 2022-23 Resurfacing Program – The Village has Priority A, B, C ready to go to bid this winter for early completion this spring.
  - g. FY 2023-24 MFT Program – The Village Engineer presented ADAP streets that need to be resurfaced. The Village would like to have the engineering completed for these other streets so we can move on bidding for these additional streets prior to the summer. If we are unable to bid early we can push these streets to the next fiscal year, for early spring 2024 bidding. Recommended to go with 4.6 total miles with engineering. Get all the engineering done for the orange highlighted roads. Once we have engineering, we will know the costs for each area and we can prioritize which roads can be done. The committee directed the Village Engineer to come back with an engineering contract for all of the highlighted roads on the map.
  - h. Five-year capital improvement program – we will be looking at conducting a new Roadbotics analysis and preparing an updated Five Year Capital Improvement program in fall 2023.
  - i. Pavement preservation update: The Village Engineer will provide the Village Administrator with proposals for pavement preservation. Propose to rejuvenate six miles of roads that are 3 -5 years old.
  - j. Grants Update: there are many grants that don't apply to the Village, but we will continue to document the staff checking into available grants.
  - k. Kane County Bike-Pedestrian Plan Update – President Tyrrell suggested that we look into turning over the bike paths in Fox Mill (for clarification, these are not Village owned but are HOA owned.

They should be part of the County Forest Preserve. Beith Road possibility to provide a bike path because it is very unsafe. Signage improvements along the Great Western Trail. Do we want signs that point to local businesses? When you enter Campton Hills, a sign would be nice.

**V.** No New Business

**VI.** A motion was made to adjourn the meeting by Kim Muhr, seconded by Rich Schult. All ayes.

**VII.** The meeting was adjourned at 8:41 p.m.

Submitted by: Denise Burchard, Village Administrator
